AUDIT SCOPE:

This is a brand new facility constructed three years ago. They are an "in and out" operation dealing with imported products from Mexico, Central and South America. All the product comes already packed but sometimes a repacking is needed (Rambutan is an example). This repacking operation takes place in a completely enclosed and refrigerated area. The operation is year round with the winter time as the high season with over 30 employees working, and in summer there is only half that number. They have five cold rooms and the whole area is completely fenced and highly secured.
